THIS IS US

Alberici is an Italian company, based in Castel San Pietro Terme (BO). Founded in 1946, Alberici provides made in Italy efficient solutions in designing, manufacturing and commercializing automatic payment systems, money changers, and accessories for the industries of Amusement, Gaming, Vending, Car-Wash, Laundries, Parking and Retail. At Alberici we don't sell products, we build relationships. We are not product oriented but customer oriented. Constant dialogue with our partners allows us to be updated on market trends and needs, especially with cash handling security. From seventy years our main objective is to supply innovative and custom solutions for all those industry professionals, that require secure and reliable payment systems, as well as assuring an efficient customer services in order to guarantee the best customer experience and satisfaction. Along these seventy years Alberici has built a strong sales network in several markets, operating directly or through distributors.

OUR COMMITMENT

Here in Alberici every detail is set to grant complete and ever-growing satisfaction to our partners, which is our key aim, together with a continuous attention to the environment.
In addition to the **highly technological production system**, the new manufacturing plant has been built making use of the most **eco-compliant techniques in energy saving and renewable power sources.** Indeed, the factory benefits from the highly-efficient heat-and-air conditioning system, whereas the **photovoltaic system** fulfills energy requirements.
